CLOSING & NEXT STEPS

Inge De Bo

Ghent University

01 Going over the day

Why?
EU-FarmBook project & platform
This in-person meeting
Human plus machine is more powerful than either human or machine alone

What?
Information about the EU-FarmBook project & platform
Interoperability for project & network communities
Testimonials of existing platforms

How?
Discussions during the afternoon

Meet European colleagues & experts
Exchange ideas, knowledge & experiences
Clearer view and specific steps to undertake

"I not only use all the brains that I have,
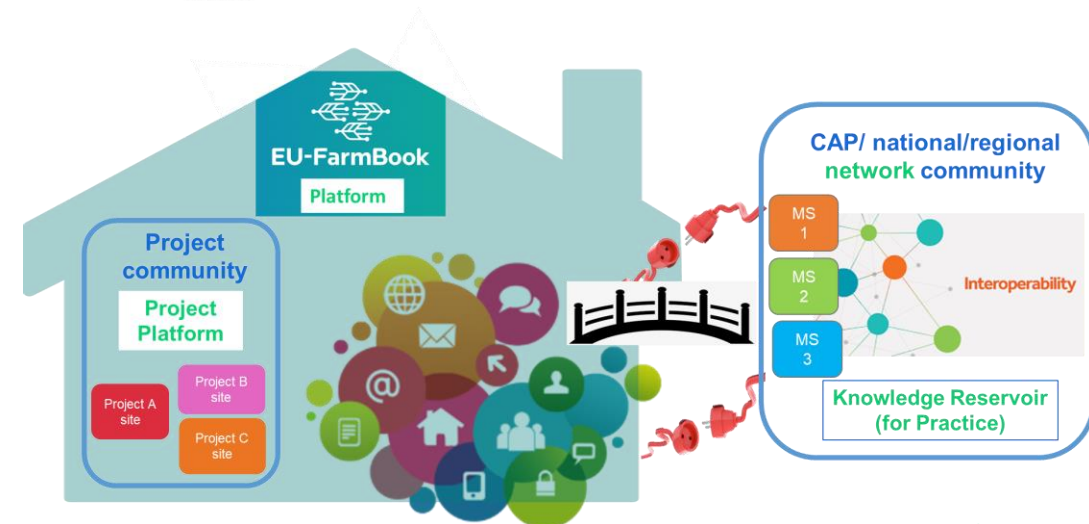

but all that I can borrow"

Woodrow Wilson –
President of the USA, 1913-1921

EU-FarmBook

- Start today with your interoperability:
  annotate your knowledge objects with metadata
  - ✓ High-quality knowledge objects
  - ✓ High priority for practicality! Useful & reliable info for practitioners

- EU-FarmBook
  = collection of KOs (+ metadata + user content)
  = collection of services

- No worries about technical issues
- Only multilingual headaches for EU-FarmBook team

- For the network community: EU-FarmBook wants to help to develop a digital solution to support knowledge exchange between all AKIS actors in the EU

- For the project community: EU-FarmBook wants to help to ensure the use & longevity of your practical results

- EU-FarmBook team is taking the lead in new developments, **in close collaboration with you!**

EU-FarmBook
Platform Day

7 years project

In several phases:

Inception phase (Aug. '22 – Jan. '23): 'Getting started'
Phase 1 (Feb. '23 – Feb. '25): Building and engagement
Step 1: EU-FarmBook digital platform further development (reaching TRL 5-6)
Step 2: Getting connected & further research in the identification and modelling of more user types

Phase 2 (Mar. '25 – Aug. '27): Uptake and maintenance – with focus on the finalization of the EU-FarmBook platform's technical development (TRL 7-8)
Step 3: Managing and enhancing knowledge supply to the EU-FarmBook

Phase 3 (Sept. '27 – Aug. '29): Outreach & sustainability
Step 4: Promoting use of the EU-FarmBook
Step 5: Feedback and refinement of the EU-FarmBook Platform

03 Next steps

On the project website:
- Presentations of this event already available
- Recordings of the plenary & panel discussion: end of March

Timeline of 2023:

Guidelines for Knowledge Objects Producers

Based on the inputs from Platform Day, the project will produce a set of guidelines for external stakeholders on how to provide data and knowledge objects that are interoperable with the EU-FarmBook Platform.

Apr 2023

Upload Manual

Based on the inputs from the Platform Day, the project will produce a manual for external stakeholders, on how to upload data and knowledge objects to the EU-FarmBook Platform.

May 2023

Ambassadors Toolkit

EU-FarmBook will produce a facilitation toolkit, providing the Ambassadors with clear tools and guidelines, that enable them to play their role as connectors between the project and external stakeholders.

Dec 2023

EU-FarmBook Platform Launch

Launch of the first version of the EU-FarmBook Platform.

Dec 2023
