

EU-FarmBook

Funded by
the European Union

The platform is being developed to test a big idea:

Can all the tangible outputs of EU-funded research and innovation projects be brought together and organized in one user-friendly platform to help get practical knowledge into the hands of the farmers, foresters, and other rural actor across Europe who need it most?

The EU-FarmBook Platform is ready for Contributors and progressively for all users:

Being an User

Finding relevant practice-oriented materials in a user-friendly way, in your own EU language, and with intelligent search options:

- Access reliable and practical knowledge
- Conduct personalized searches
- Interact with peers (in the future)

Being a Contributor

Providing practice-oriented materials annotated with metadata, in your own EU language, through an easy-to-use upload form.

- Contribute to an EU-wide base of agriculture and forestry related knowledge
- Ensure the longevity of your project's outputs

Mission

EU-FarmBook is the answer to real needs of farmers, foresters and advisors. The Horizon Europe project offers an interactive, multi-lingual online platform for agriculture and forestry communities, giving access to trustworthy practice-oriented materials according to **findable, accessible, interoperable, and reusable** (FAIR) data principles. **EU-FarmBook** users can interact and explore innovative ways to solve their daily challenges.

Is the **one-stop-shop** for the **free** exchange of practical project outputs from all Horizon Cluster 6 Research & Innovation projects.

Ensures different upload options: easily contribute manually or via API for efficient sharing.

Upholds **strict criteria** as a reliable repository (near future), including **metadata**, standardized data, curation, persistent identifiers, online interaction, long-term preservation, and data access conditions.

Recognizes the value of **Open Science**, advocating for the early and widespread sharing of publicly funded research.

eufarmbook.eu

EU-FARMBOOK IS A DATABASE OF AGRICULTURAL AND FORESTRY INFORMATION, **NOT** A DISTRIBUTION CENTER FOR OUTPUTS

Platform Features:

-  Free maintenance-hosting and open-access
-  Domain Specific
-  Platform funded and endorsed by the EC
-  Project visibility and findability
-  Support Center
-  Easy upload process (manual or via API integration/connection)
-  Integration of practice-oriented materials
-  Respects Authors Rights

In the future:

- Join a community of peers
- Leveraging AI chatbot support
- Multilingual support

EU-FarmBook Ambassadors

Meet the Ambassadors team, which aims to **support Contributors** (Partners or Coordinators of Horizon 2020 and Horizon Cluster 6 Research & Innovation projects) and **facilitate connections** with the Agricultural Knowledge and Innovation Systems (AKIS) in each Member State:
